Just Don't Buy It!. And save over \$450,000 on average over a lifetime of auto ownership and operation costs. Or, make the **Car-Deal-Literacy-to-Library** connection and pick up a good book or two on auto buying, leasing, and servicing before making your next car deal mistake.

Ding the auto dealer and the auto manufacturer on negotiated profits on all new and used auto deals, leases and servicings -- especially on so called "no-haggle" and "one price fits all" deals.

Consider the auto alternatives. Support auto alternative transportation resources and projects to help mitigate the inflated public health, social, environmental and economic costs of the auto industrial-political complex and monopoly. Even auto addicts benefit when we all have auto alternatives.

Demand comprehensive "Fair Car Sales and Service Practices" consumer protection laws be enacted and enforced to help protect our friends and families from the tens of billions of dollars deflated from our economy every year due to unfair, manipulative and fraudulent auto sales and service practices.
